GitHub
https://github.com/Pakvothe

GamingHub   E-Commerce
Finished
It is a group project of the intensive bootcamp "soyHenry", I worked both in the backend and in the frontend (focusing on the Front). Technologies such as React, Redux, Express, Sequelize, PostgreSQL and Firebase were used. The repository is available in my account at github declared above.

QuizzMeApp   Mobile App
Finished
Final degree project of the intensive bootcamp "soyHenry" it was carried out with a group of 6 developers using SCRUM methodology and self-taught technologies (React Native, Mongoose, GraphQl). It is a fully functional mobile application for quizzes, more information in my GitHub and in my portfolio, both declared above.

- Firebase

Education

Henry(800hs)
Full Stack Web Developer
I studied at Henry's intensive bootcamp (soyhenry.com), where I learned many development technologies and teamwork. I carried out two large projects, one is an e-commerce for the sale of videogames which was rated with a 10. And also a mobile application about Quizzes which was also rated with a 10.

Tecnico mecanico de motocicletas
Max Motos   Engineering
I am a motorcycle mechanical technician from the Max Motos academy, with an official degree from the National Technological University (UTN) Argentina.
